Meet Our Mascot Mags the Mustang

At PS238 we foster academic growth through social emotional development and pride ourselves on our nurturing community. Little learners become independent citizens who take ownership of their learning as they contribute to the daily activities. We strive to open the world up to them through literacy and collaborative experiences.

Pre-K Curriculum

The Creative Curriculum for Preschool emphasizes that early education shapes lifelong learning. Focusing on whole-child approaches, it recognizes that quality care during these years significantly influences children's profound and lasting development.

Through our curriculum your child will explore language, literacy and math EVERYDAY

Children will learn through play in the following areas of

interest:

Blocks

Toys and Games

Art

Library

Discovery

Dramatic Play

Sand and Water

Music and Movement

Technology

Social Emotional Development Through Play

We had our very own Pumpkin Patch at PS238 and worked to build community as we painted pumpkins with family members!

Fun in Kindergarten

- Kindergarten is an exciting year filled with new independence, increasing abilities and amazing growth. Your child will learn fundamental developmental skills, and of course have lots of fun along the way!
- We are very passionate about teaching young children and it is our mission to create a positive, nurturing environment where your child feels safe and cared for. It is our goal to instill an early love for learning in our students that they will carry with them throughout their academic careers.

Spring caterpillars hatch into butterflies before our eyes as we learn about the cycle of life.

*Planting popcorn kernels amaze us each
and every year as we watch living things grow.*

Activities

Class Trips:

We learn about planting and life on a farm as we harvest pumpkins at Decker Farms.

Events

The Jingle Ball!

A winter wonderland of holiday events that were filled with laughter and seasonal magic.

Our little snowman!

Gingerbread House Making!

The 8th graders became Holiday Mentors; helping the lower grades to create delicious masterpieces.

Winter Wonderland

Our Winter Wonderland Concert was a magical morning full of our talented children!

Parent Coordinator Corner

Gabriella Rivera is our dedicated Parent Coordinator at PS238. In her first year, Ms. Rivera has spearheaded a dynamic program; monthly bedtime Zoom stories. Featuring diverse monthly reads, this program highlights her commitment to advancing childhood literacy. We also bring the free dental clinic and the eye doctor, right to your students at school, none of which come at any cost to the parents!
